Home School Family Camp  
May 11-13, 2011

Hidden Acres  
www.hacamps.org

It's that time once again! The time for all homeschool students and families to come together and have a great time of fellowship, food, fun, and learning. These are three days that are jam packed with things to do. We are sure

that your family will not have a dull moment.

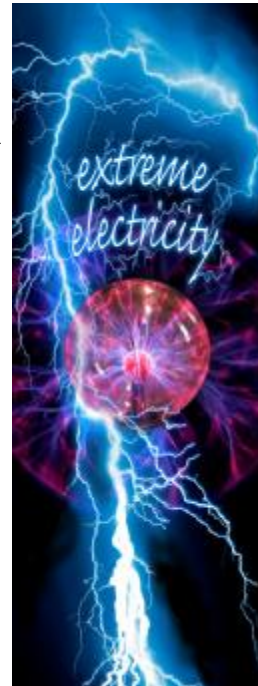

Our prayer is that this retreat would be a time to share, strengthen and encourage families to continue the investment they have already begun in their children's lives. We also pray that this would be a time where you can escape from the normal routine and have a time of growth within your family as well as your walk with Christ.

This year our guest speaker will be Josh Denhart. Josh works at Valley Evangelical Free Church in Des Moines, Iowa. He is also the founder and creator of "The Amazing Chemistry Show", an educationally entertaining stage production filled with explosions, colored foam, liquid nitrogen, and glow-in-the-dark solutions, all set to upbeat music. Josh's show and family experiments are educational, entertaining, and filled with great messages.

So pack up the family and come on over! We are excited to see you come and enjoy a great time at Hidden Acres.
