

With over 3400 campers at Hidden Acres each summer it is a necessity for us to provide great first aid response and professional medical attention each week of summer camp.

It is our desire to have qualified, certified medical professionals on site each week - including the two weeks of staff training. Our hope is for five to six professionals each week - the staff team can consist of volunteers who hold MD, RN, LNP, EMT, Paramedic, CNA, Med Pass certificate, PA. Each week will have one person who serves as the Health Center Manager, and our entire team is under the direction of a medical director. We would also like to add at least one adult non-medical volunteer - someone to be available to assist the health center staff with non-medical tasks.

Quick notes:

1. We ask Health Center Staff to arrive at camp on Sunday by 1p.
2. Tasks: help with check in, med passes, first aid and illness assessments.
3. Take one night of "On call" during the week.
4. Health Center Staff are housed in the Welcome Center. Meals and lodging for the week are provided.
5. All children of Health Center Staff who serve one week at camp receive a full scholarship for a week of camp.
6. Requirements: copy of current license/certification, current background check.
7. Each weekly shift ends around 2p on Friday.

We also recruit weekend health center staff to serve the two week campers and summer staff who stay onsite over the weekend (Friday afternoon through Sunday lunch med pass). The weekend staff person must have med pass certification and should plan to be

at the health center at med pass times, but can be out and about enjoying camp during the weekend at other times. Family members are welcome to stay as well. The staff member will be ON CALL. Meals are generally not provided on weekends. *ONE camper is eligible for a full scholarship per weekend volunteer.
